completó con éxito el programa especializado en línea

JavaScript Programming with React, Node & MongoDB

Holders of this certificate showed their ability to build interactive front-end JavaScript applications using React components. They demonstrated competency with Node.js by writing back-end applications that communicate with other services via RESTful APIs using the Express framework. They've shown they can implement asynchronous programming, and callback functions that use promises and can connect their Node application with a MongoDB. They understand best practices such as optimization and scaling techniques.

Este certificado acredita que el estudiante completó un programa en línea impartido a través de Coursera. No constituye una inscripción formal en ninguna universidad o entidad, ni otorga por sí mismo créditos académicos, calificaciones o un título.
